A plan whereby the high school part of Elkhart's school system will be divided into a junior and a senior high school is being evolved by Superintendent J. A. Wiggers.

The removal of a division of building intended to make room for a high school mathematics class is but part of Mr. Wiggers' plan, as he stated that it would probably be but a short time before the sixth grade pupils would also be housed in that building—then the seventh and eighth grades at Central and what is now known as the freshman year of high school will constitute the junior high school, and the present sophomore, junior and senior classes the senior high school.
